Additional 3/8* free flow of instrum that IS hydraulic outlets, Potentionneter for adjusting the hydraulic flow rate and S1 (intro-oversized pump.)  REAR LIFT   Standard: Normal couplings cat. 1 and 2, Optional: position and draft-controlled   Standard: Normal couplings cat. 1 and 2, Optional: Disclict-couplings cat. 1 and 2, arms adjustable in length or Quick-couplings cat. 1 and 2, arms adjustable in leng	Standard	2 double-acting and 1 double-acting with float and free flow oil return (total 7 hydraulic outlets)				
confinances flow with adjustable flow ratio and free flow of return, 4 double-acting and 1 double-acting with retail experted valves replacing standard ones). Additional 39° flow flow on elevant bett all 51 yearbase coulted, Potentionether for adjusting the hydraulic flow rate and 51 from oversized pump. Remoke PTO engagement control. Storage arments  3-point implement hitch Standard: Normal couplings cet. 1 and 2. Optional: Outlok-couplings cet. 1 and 2. I ame adjustable in length or Outlok-couplings cet. 1 and 2. I ame adjustable in length and hooks adjustable in within manual adjustment - Optional: hydraufically controlled upper link and tie rod link arm  8-all joint lifting capacity (kg) 2000  FRONT LIET (optional) Two-opinide, complete with front bumper and 4 front hydrauficil outlets (replicated from the rear)  Third point arms Pigd with quick-couplings cat. 1  Lifting capacity (kg) 800  DRIVING POSITION Revemble with notating platform suspended on silent blocks. Suspended pedals mounted on the rotating control tower  Steering wheel Tit adjustable  Seat Opinions with provisional part of ceasy tipping, safety boil and man-on-board sensor. Standard: comfort seat with adjustable spring tension according to the operator's weight - Opinional: Frammer or "Cobo provinatic seas"  SERVICE BRAKES Oliharh discs with hydrostatic control, acting on the four wheels with automatic engagement of the 4-wheel drive. Independent manuscuring brakes acting on the near wheels.  SERVICE BRAKES Oliharh discs with hydrostatic steering a clining on the four wheels with automatic engagement of the 4-wheel drive. Independent manuscuring brakes acting on the near wheels.  SERVICE BRAKES Oliharh discs with hydrostatic steering a clining on the four wheels with automatic engagement of the 4-wheel drive. Independent manuscuring brakes acting on the near wheels.  SERVICE BRAKES Standard: front homologisted only braw with gas springs for casy lovering and lifting  CABIN (optional) Standard: front homologisted only braw with gas springs fo	Optional	With rear up/down lift: up to 12 hydraulic outlets in total - With draft-controlled rear lift: up to 9 hydraulic outlets in total				
3-point implement hitch Standard: Normal couplings cat. 1 and 2 Optional: Outlok-couplings cat. 1 and 2, arms adjustable in length or Outlok-couplings cat. 1 and 2, L-shaped, arms adjustable in length and hooks adjustable in width Third point tier od Standard: with manual adjustment - Optional: hydraulically controlled upper link and lie rod link arm Ball joint iffing capacity (kg) 2900 FRONT LIFT (optional) Two-cylinder, complete with front bumper and 4 front hydraulic outlets (replicated from the rear) Third point arms Rigid with quick-couplings cat. 1 Lifting capacity (kg) 800 BRIVING POSITION Reversible with rotating platform suspended on silent blocks. Suspended pedals mounted on the rotating control tower Steering wheel Tit adjustable Seat With gas spring for easy tipping, selectly belt and men-on-board sensor. Standard: comflort seat with adjustable spring tension according to the operator's weight - Optional: Grammer or 'Cobor proumatic seat  SERVICE BRAKES Oli bath discounts with hydrostatic control, acting on the forur wheels with automatic engagement of the 4-wheel drive. Independent manoeuving brakes acting on the near wheels  Automatic and independent Brake-Off acting as emergency brake with proportional action STEERING Hydrostatic steering acting on the forur wheels. Prov deviator for steering unit  SAFETY Standard: front homologated roll-bar with gas springs for easy lowering and iffting  Available in two versions. WSTA PRO model, pressured and category 4 approved lachated carbon filters required. Sundpring Four post category of USB bloated the arradio with handsfree. Two USB sockets. LED worklepts on the four sides of the cab plotal of 10 lights], LED beacon lamp, Optional activated carbon filters required. Sundpring spatem. Dust filters category 2. USB bloated the nation filters for add on seat blooks. Flay gload doors and cloth seat. AC, ventilation and heating system. Car radio preparation. Optional activated or carbon filters for category 2. USB bloated the nation filters for category 2. USB	Joystick (optional)	continuous flow with adjustable flow rate and free flow oil return, 4 double-acting and 1 double-acting with float (control valves replacing standard ones). Additional 3/8" free flow oil return (total 13 hydraulic outlets). Potentiometer for adjusting the hydraulic flow rate and 51 l/min oversized pump.				
Third point tier od Standard: with manual adjustment - Optional: hydraulically controlled upper link and tie rod link arm  Standard: with manual adjustment - Optional: hydraulically controlled upper link and tie rod link arm  Rigid with quick-couplings cat. 1  Lifting capacity (kg)  800  DRIVING POSITION Reversible with rotating platform suspended on silent blocks. Suspended pedals mounted on the rotating control tower  Steering wheel  Till adjustable  Till adjustable  Till adjustable  Seat  With gas spring for easy tipping, safety belt and man-on-board sensor. Standard: comfort seat with adjustable spring tension according to the operator's weight - Optional: "Grammer' or "Cobo" pneumatic seat  SERVICE BRAKES  Oll bath discs with hydrostatic control, acting on the four wheels with automatic engagement of the 4-wheel drive. Independent manoeuvring brakes acting on the rerar wheels.  Parking brake  Automatic and independent Brake-Off acting as emergency brake with proportional action  STEERING  Hydrostatic steering acting on the front wheels. Flow deviator for steering unit  SAFETY  Standard: front homologated roll-bar with gas springs for easy lowering and lifting  Available in two versions. VISTA PRO model, pressurised and category 4 approved (activated carbon filters required). Soundproot: Four-post inconceous frame with conceal profile, mounted on silent blocks. Fully glazed doors and citoff seat. ArC, ventilation and heating system. Dust filters in the conceal profile in mounted on silent blocks. Fully glazed doors and citoff seat. ArC, ventilation and heating system. Dust filters in seath valued acarbon filters  DASHBOARD  Instrument panel with analogue gauges and TFT digital colour display. Warning lights and hore  ELECTRIC SYSTEM  Battay 80 Ah / 12 V - Alternator 96 A  Ventile Control Unit, full LED street lights and indicator system, front LED working lights, two USB sockats on the dashboard, rear 7-pin and 3-pin sockets  4 Automatic Carbon filters  Sandard: front and rear CUNA cat. C adjustable in heig	REAR LIFT	Standard: up/down lift with two external cylinders - Optional: position and draft-controlled				
Ball joint lifting capacity (kg)  2300  FRONT LIFT (optional)  Two-cylinder, complete with front bumper and 4 front hydraulic outlets (replicated from the rear)  Third point arms  Rigid with quick-couplings cat. 1  Lifting capacity (kg)  800  DRIVING POSITION  Reversible with rotating platform suspended on silent blocks. Suspended pedals mounted on the rotating control tower  Steering wheel  Tilt adjustable  Seat  With gas spring for easy tipping, safety belt and man-on-board sensor. Standard: comfort seat with adjustable spring fension according to the operator's weight - Optional: 'Grammer' or 'Cobo' pneumatic seat  SERVICE BRAKES  Oil bath discs with hydrostatic control, acting on the four wheels with automatic engagement of the 4-wheel drive. Independent manoeuvring brakes acting on the rear wheelses  Parking brake  Automatic and independent Brake-Off acting as emergency brake with proportional action  STEERING  Hydrostatic steering acting on the front wheels. Flow deviator for steering unit  SAFETY  Standard: front homologated roll-bar with gas springs for easy lowering and lifting  Available in two versions. VISTA PRO model, pressured and category 4 approved (politicated carbon filters required). Soundproof. Four-post monocoque frame with conical profile, mounted on alient blocks. Fully glazed doors and cloth seat. ACL vertilation and heating system. Dust filters category 2. USB blacked carbon filters for category 4. SPACE CLIMA model, homologated and soundproof. Suppost monocoque frame mounted on slient blocks. Fully glazed doors and cloth seat. In the profile of 10 lights, LED beacon lamp. Optionals activated carbon filters for category 4. SPACE CLIMA model, homologated and soundproof. Suppost monocoque frame mounted on slient blocks. Fully glazed doors and cloth seat. LED beacon lamp, care in the seat of 10 lights, LED beacon lamp. Optionals activated carbon filters for category 4. SPACE CLIMA model, homologated and soundproof. Suppost monocoque frame mounted on slient blocks. Fully glazed doors and cl	3-point implement hitch					
FRONT LIFT (optional) Two-cylinder, complete with front bumper and 4 front hydraulic outlets (replicated from the rear) Third point arms Fligid with quick-couplings cat. 1  Lifting capacity (kg) B00  DRIVING POSITION Reversible with rotating platform suspended on silent blocks. Suspended pedals mounted on the rotating control tower  Steering wheel Titl adjustable Seat With gas spring for easy tipping, safety belt and man-on-board sensor. Standard: comfort seat with adjustable spring tension according to the operator's weight - Optional: Grammer' or 'Cobo' pneumatic seat  SERVICE BRAKES Oil bath discs with hydrostatic control, acting on the four wheels with automatic engagement of the 4-wheel drive. Independent manoeuvring brakes acting on the rear wheels  Parking brake Automatic and independent Brake-Off acting as emergency brake with proportional action  STEERING Hydrostatic steering acting on the front wheels. Flow deviator for steering unit  SAFETY Standard: front homologated roll-ber with gas springs for easy lowering and lifting  Available in two versions. VISTA PRO model, pressurised and category 4 approved (activated carbon filters required). Soundproof: Four-post monocopus frame with contical profile, mounted or safert blocks. Fully glazed doors and cloth seat. ACc, ventilation and heating system. Dust filters active activated carbon filter or calleging visits and profile and profile of carbon filter for calleging visits.
